

Dr Hugues (Hugo) Lortie-Forgues

Department of Mathematics Education, Loughborough University, UK

Email: h.lortie-forgues@lboro.ac.uk

Phone: +44 1509 227476

Employment

- 2020-present. Senior Lecturer, Loughborough University.
- 2015-2020. Lecturer, Department of Education, University of York.
- 2013-2015. Postdoctoral Fellowship, Psychology, Carnegie Mellon University.

Education

- PhD (with clinical PsyD), Psychology, Université du Québec à Montréal.
- Clinical Internship, Montreal Neurological Institute, McGill University.
- BSc Hons Psychology, Université du Québec à Montréal,

Current academic leadership and service

- REF2029 Co-Lead, Unit of Assessment 23 (Education) (2025–present)
- Research Coordinator, Department of Mathematics Education (2023–present)
- Member, School of Science Industry Advisory Board (2026–present)
- Member, Research and Innovation Panel (2023–present)
- Member, ESRC Assessor College (2025–present)

Selected publications

- Kühlwein, F., Schmidt, K., Rosman, T., **Lortie-Forgues, H.**, & Merk, S. (2026). Evidence-informed decision making: Teachers' evaluations of effect sizes as predictors of their intentions to implement an evidence-supported practice [Registered Report, Stage 1, in-principle acceptance]. *British Journal of Educational Psychology*.
- Woollacott, B., Guy, N., & **Lortie-Forgues, H.** (in press). Barriers to interacting with research for early years and primary educators. *AERA Open*.
- Sims, S., Woollacott, B., **Lortie-Forgues, H.**, Inglis, M., & Foster, C. (in press). How should we communicate research findings to teachers? No difference in teachers' intentions to use evidence across 512 versions of a research summary. *Educational Researcher*.
- **Lortie-Forgues, H.**, Sio, U. N., & Inglis, M. (2026). Should we communicate the uncertainty of educational effects to teachers?. *Journal of Research on Educational Effectiveness*, 1-23.
- Sims, S., Anders, J., Inglis, M., **Lortie-Forgues, H.**, Styles, B., & Weidmann, B. (2026). Experimental education research: rethinking why, how, and when to use random assignment. *Educational Research and Evaluation*, 1-17.
- Sio, U. N. & **Lortie-Forgues, H.** (2024). The impact of creativity training on creative performance: a meta-analytic review and critical evaluation of five decades of creativity training studies. *Psychological Bulletin*. 150(5), 554-585
- Inglis, M., Foster, C., **Lortie-Forgues, H.**, & Stokoe, E. (2024). British education research and its quality: An analysis of Research Excellence

Framework submissions. *British Educational Research Journal*, 50(5), 2495-2518.

- Algarni, B., & **Lortie-Forgues, H.** (2023). An evaluation of the impact of flipped-classroom teaching on mathematics proficiency and self-efficacy in Saudi Arabia. *British Journal of Educational Technology*, 54(1), 414-435.
- Sims, S., Anders, J., Inglis, M., & **Lortie-Forgues, H.** (2023). Quantifying “promising trials bias” in randomized controlled trials in education. *Journal of Research on Educational Effectiveness*, 16(4), 663-680.
- **Lortie-Forgues, H.**, Sio, U. N., & Inglis, M. (2021). How should educational effects be communicated to teachers? *Educational Researcher*, 50, 345-354.
- Demack, S., Maxwell, B., Coldwell, M., Stevens, A., Wolstenholme, C., Reaney-Wood, S., Stiell, B., & **Lortie-Forgues, H.** (2021). *Review of EEF projects*. Education Endowment Foundation.
- **Lortie-Forgues, H.**, & Inglis, M. (2020). On the practicality of extremely large educational RCTs. *Educational Researcher*, 49, 291-292.
- **Lortie-Forgues, H.**, & Inglis, M. (2019). The value of consensus priors: a response to Simpson. *Educational Researcher*, 48, 385-387.
- **Lortie-Forgues, H.**, & Inglis, M. (2019). Rigorous large-scale educational RCTs are often uninformative: should we be concerned? *Educational Researcher*, 48, 158-166.
- Siegler, R. S. & **Lortie-Forgues, H.** (2017). Hard lessons: Why rational number arithmetic is so difficult for so many people. *Current Directions in Psychological Science*, 26, 346-351
- **Lortie-Forgues, H.** & Siegler, R. S. (2017). Conceptual knowledge of decimal arithmetic. *Journal of Educational Psychology*, 109, 374-386.

Selected invited talks

- TU Dortmund University **(2026)**
- Karlsruhe University of Education **(2025)**
- University of Oxford **(2025)**
- Education Endowment Foundation **(2021)**
- Royal Statistical Society **(2019)**
- Department for Education **(2019)**

Research supervision and examination

- Completed PhD supervision
 - Badriah Algarni, University of York (2021)
 - Usama Saad, Loughborough University (2025)
 - Bobo kai Yin Chan, Loughborough University (2025)
- Current PhD supervision
 - Matt Lewis, Loughborough University (2024)
 - Jess Green, Loughborough University (2024)
 - Carlotta Hammerer, Loughborough University (2026)
- Internal examiner
 - PhD thesis, Georgios Thoma, Loughborough University (2024)
- External examiner
 - PhD thesis, YIP Chiu Hung, The University of Hong Kong (2026)

Teaching and module leadership
